# ARCHITECTURE & DESIGN FIRM OF THE YEAR

## Isabel Barros Architects

www.isabelbarrosarchitects.ie | +353 (0) 53 91 689 42 | office@isabelbarrosarchitects.ie

Isabel Barros Architects was established in 2010 by founder and owner, Isabel Barros – an RIAI registered architect with 27 years of experience. The architecture and design firm is driven by a passion to create high quality, contemporary architecture, while also maintaining a strong focus on the energy efficiency and sustainability. Offering a whole raft of architectural services, from help with brand new homes, to renovations, extensions and commercial plots from retail and business, Isabel Barros Architects has the skills and experience necessary to get the job done right. The company works alongside a valuable network of consultants, contractors and suppliers who have been in the business for decades and know exactly how to realise the visions of their clients. Isabel also offers a guarantee to customers that they will be satisfied with their design, or they will continue with the project until they are.

Isabel Barros Architects are totally committed to a sustainable future and practice, working hard to ensure materials used and designs all comply with the latest energy efficiency guidelines. From obtaining standard BER certifications to offering a full energy efficiency consultation for existing buildings, the architecture firm is dedicated to ensuring a high building energy rating. The Wexford-based company integrates solutions that are sustainable throughout their work, never embarking on a project until all the eco-friendly boxes have been ticked. Isabel Barros Architects aims to deliver the ultimate in customer satisfaction – meeting lifestyles or commercial requirements and balancing them with budgetary and environmental design considerations. Whether clients are looking

to design new homes or hoping to upgrade existing buildings, the architect's strong technical background gives them the experience they need to install or address any issues.

The judging panel was particularly impressed by the flexibility of Isabel's architectural services; working on a huge variety of different homes and buildings while always maintaining the same level of expertise and excellence. The humanist and environmental approach adopted across all their designs has attracted an ever-growing client fan-base, enticed by the creative but functional spaces on offer. Continually evolving according to needs both personally and planetary, Isabel Barros Architects provide stunning architectural solutions.
